marseille buiten
ruimtelijk ontwerp

in opdracht van

randvoorwaarden

locatie Zoetermeer, Lansingerland
 type industriegebied
 geom. vlakte van getij-afzettingen
 bodem klei op fijn zand, weinig humus
 GWS 80-100cm onder maaiveld

gemengde laan

35% *Tilia x europaea* 'Pallida'
 10% *Carpinus betulus*
 20% *Fraxinus americana*
 10% *Quercus cerris*
 30% *Quercus palustris*

groepen bomen, inheems

Alnus glutinosa
Prunus avium
Quercus robur
Salix alba - bevederd
Ulmus 'Lobel'
Ulmus laevis

struikgewas

Acer campestre - meerstammig
Alnus cordata
Crataegus monogyna
Prunus spinosa
Salix caprea - meerstammig

Tilia x europaea 'Pallida'

Carpinus betulus

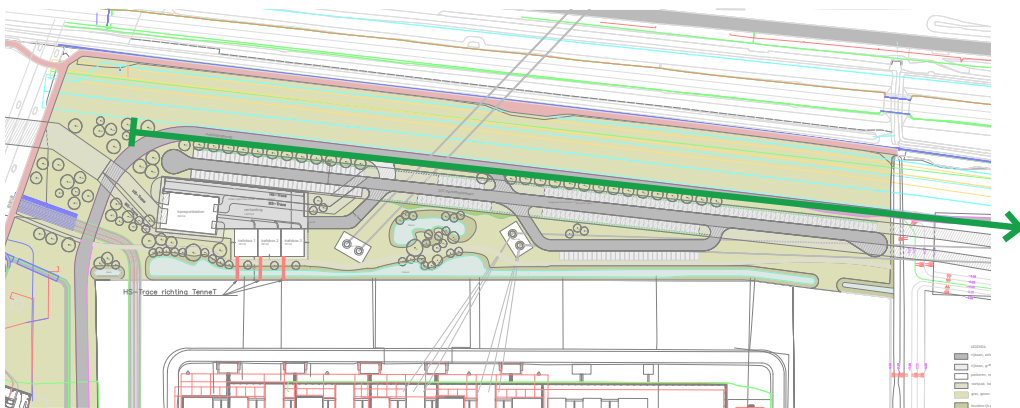

Fraxinus americana

Quercus cerris

Quercus palustris

gemengde laan
